

CRANE- ANTICOLLISION-SYSTEMS

Service Hotline:
+43 7245 22001-13

- for
- ✓ In-door cranes
 - ✓ Portal cranes
 - ✓ Ship cranes
 - ✓ Port cranes
 - ✓ Rail bound cranes

Anti Collisions Sensors

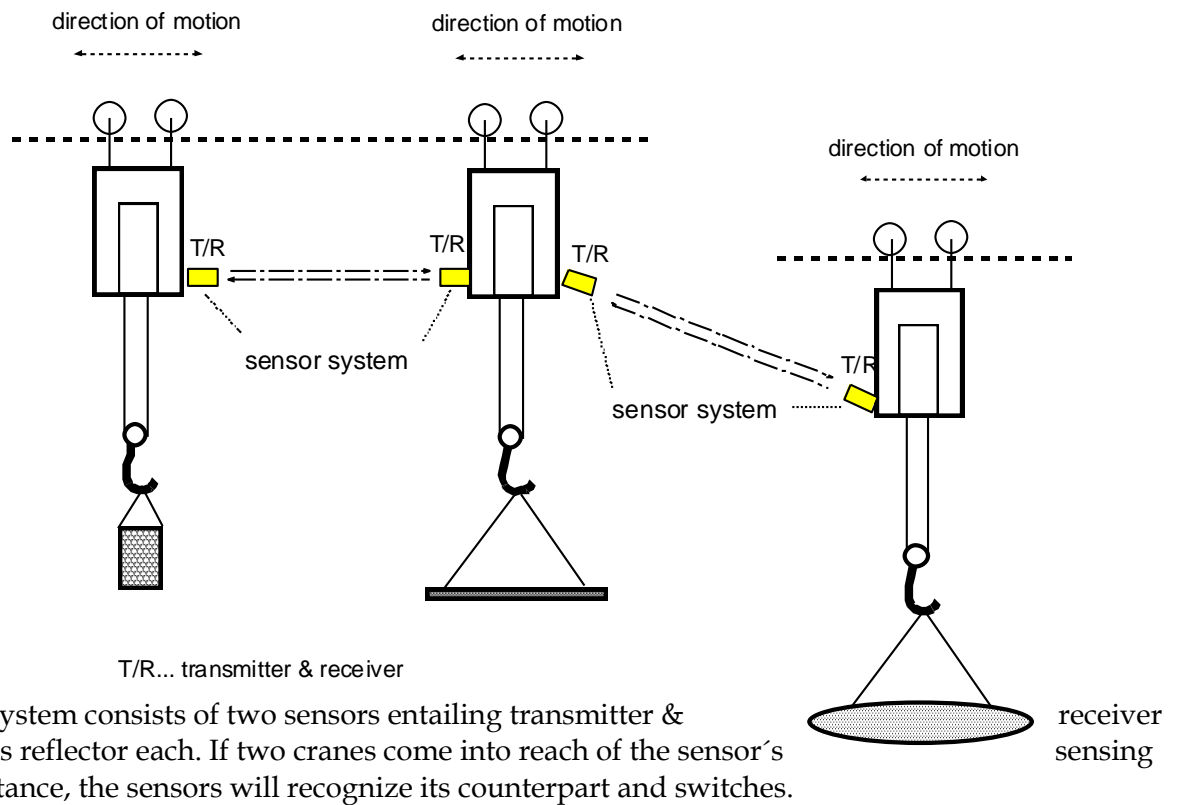

... allow reliable prevention of collisions between two cranes acting closely to each other.

- ✓ High Performance Infrared Sensors
- ✓ Robust Shock Proof Polyester Casing
- ✓ Sensing Distance up to 25 m (on request even higher)
- ✓ For Outdoor Applications delivered with Idle Mode Heating
- ✓ With 1 or 2 Switch Points
- ✓ Tolerant against Lateral Offset and Dust

SENSORIK
Austria

Functional principle

3 Systems for different applications

FSP 30 - 20 ..

with electrical self supervision

[>> more info](#)

FSA 42 - 20 ..

with electrical and optical self supervision for increased safety requirements

[>> more info](#)

FSA 25 DUO ..

with enhanced lateral offset for rail bound vehicles

[>> more info](#)
